On motion of Mr. Vance the tariff bill was postponed until to-morrow, and the senate adjourned.

THE DILL BROTHERS.

One of Them Breaks Out in a Fresh Spot and is Now Violently Insane.

HUNTINGTON, Dec. 4.—A commission of lunacy yesterday pronounced Jacob Dill, one of the religious maniacs mentioned in former dispatches, insane, and formal application has been made for his admission into the asylum. He again became violent to-day, and alternately prayed, sang, and cursed as he paced his cell in the jail. Not content with this, he demanded to be taken to the river that he might baptize himself, and being refused he tore his clothing into shreds, and made a bedlam of the place. His brother David has quieted down and will be taken to his home in Ohio. They now partake of food having done pennance for their sins.

HE BECOMES INSANE!

And Wants to Kill Three of His Children.

WABASH, Dec. 4.—A most remarkable hallucination has seized upon Joe Wigner, of this city, who has several times stated that he would kill three of his children. A guard is being kept over Wigner constantly and his every motion watched. He is not believed to be the victim of intoxicants, as he is abstemious in his habits. The case is a peculiar one.

Freight Rates.

CHICAGO, Dec. 4.—The Transcontinental association has finished its labors. A system of graded rates was agreed upon on traffic going to the Pacific coast. The highest class of differential rate in favor of Chicago will be three cents less than from New York, while the lowest class will be ten cents less. Cincinnati, Toledo and Detroit are made twenty-five cents less than New York on the highest class and five cents less on the lower class.

Labor Meetings.

COLUMBUS, O., Dec. 4.—Separate meetings were held by the delegates representing the federation of miners and the national district assembly 135, K. of L. in proposed joint session, today. The federation men passed a resolution favoring one national organization. The Knights had not reached a decision at 1 o'clock.

Tobacco Men.

CINCINNATI, Dec. 4.—A meeting of prominent tobacco manufacturers of the United States is in progress here to-day. The proceedings are private, but the members say the business merely relates to questions affecting the tobacco market here and at Louisville.

The Billiard Tournament.

CHICAGO, Dec. 4.—Last night's games of the billiard tournament resulted as follows:

First game—Moulds 200, highest run 63; Ives 152, highest run 28.

Second game—Carter 200, highest run 43; Hatley 182, highest run 31.

Appointed Trustee.

PITTSBURG, Dec. 4.—In the United States court to-day, J. N. Hutchinson, of New York, was appointed trustee of the various mortgages of the Pittsburg, Fort Wayne and Chicago Railroad company, to succeed G. W. Cass and Samuel J. Tilden.

A STATE SENSATION.

Chamberlain, the Murderer of Ida Wittenberg, Ends His Career in the Logansport Jail.

LOGANSPORT, Ind., Dec. 4.—Chamberlain, the murderer of Ida Wittenberg, has paid the penalty of his crime with his own hand. Yesterday morning, at about 6 o'clock, his body was found hanging to the door of his cell by a piece of bed ticking torn from his cot. With this strip thrown over the upper cell of his door and well fastened about his neck, he made a quick move by raising his feet and dropping toward the floor. It is supposed that several attempts were made before the work was finished, yet the desperate murderer clung to his work with a persistency and tenacity that is astonishing. By raising his feet perpendicularly backward and holding them there with his hands he continued thus choking himself until he became so exhausted that a final swing of this kind produced strangulation, and the victim expired.

Chamberlain was twenty-four years old and lived on a farm with his parents, near Reynolds, White county. He fell in love with the pretty Miss Wittenberg, and endeavored to pay attentions to her. But she repulsed him. In a fit of jealousy he hid himself in the yard at her home, and as she said "good night" to her favored escort, he caught her and after a struggle shot her in the mouth, from which she died. He escaped, but was captured. While in jail at Monticello he made a murderous assault on the sheriff and nearly killed him. Sometime afterwards he refused to eat anything and acted like an insane person, but the general belief was that he was shamming. He was not a bad or vicious young man so far as known.

The case was brought to Logansport on a change of venue, and the trial had progressed two days.

Natural Gas Troubles at Wabash.

WABASH, Dec. 4.—An extra session of the city council was held last night to consider an alleged violation of the schedule of rates fixed by ordinance by the Wabash natural gas company. It is stated that exorbitant rates are being exacted of consumers, many of whom are very sore toward the company. The mayor was directed to notify the gas people to supply gas at the schedule rates, and, refusing to do so by noon tomorrow, an injunction suit to prevent the company doing business will be filed. Residents are being requested to hold off in signing contracts until the trouble is adjusted.

Railroad Stock Taxable.

CINCINNATI, Dec. 4.—Judge Peck, of the superior court, on an application by a holder of the Dayton and Michigan railroad's preferred stock, for an injunction preventing the collection laid by the county officers, has decided that such stock is taxable. Certificates of stock, he says, guarantee regular dividends to holders. This guarantee is secured by mortgage. Holders of this stock do not have the right to vote, the court therefore holds they are not stockholders, but creditors of the road and refuses an injunction.

Not Settled Yet.

NEW YORK, Nov. 4.—It is officially announced on Wall street that all negotiations for the settlement of the railroad troubles west and southwest of Chicago, have been broken off and the general clearing house plan has fallen through. A committee, headed by President Winslow, of the St. Louis and San Francisco road, is still in existence, but has not yet considered any new plan. The failure of the Clearing house scheme was caused by the opposition of President Hughitt, of the Northwest road.

A Burglar Caught.

ALMA, Mich., Dec. 4.—Deputy Sheriff Strong had an exciting and successful chase in the woods near here yesterday after John Miller, who was wanted for an alleged burglary. Miller was taken to St. Louis, where his examination is to be held.

Small Pox.

CHICAGO, Dec. 4.—South Chicago is greatly alarmed over the discovery of two cases of small pox on board the steamer W. H. Gratwick, which arrived from Buffalo, coal laden, November 27.

Killed Himself.

TROY, N. Y., Dec. 4.—Theodore E. Haslehurst, the post grand commander of the Grand commandery of Knights Templar, of the state of New York, shot and killed himself this morning.

The Weather.

WASHINGTON, Dec. 4.—Indiana—Fair, warmer.

FOR THEIR SAKE!

A Railroad Flagman Loses His Life in Saving Two Girls From Death—A Gambler Shot.

CANAJOHARIE, N. Y., Dec. 4.—As the fast mail whizzed through Herkimer this morning, two girls were on the track, and in danger of being run over. Flagman Wolver rushed to their rescue, and saved them, but he himself was killed.

GAMBLER SHOT.

CHICAGO, Dec. 4.—Peter O'Niel, a gambler, was fatally shot last night by Edward Hill, a saloon-keeper. The latter claims O'Neil insulted his wife.

STOLE RAZORS.

A Barber Shop Touched Last Night.

Some time last night a sneak thief entered the barber shop of N. C. Browand, on Calhoun street, and selected ten of his choicest razors, all of which he appropriated.

He left the old ones behind. An exemploy is suspected.

Baby Farming.

LONG ISLAND CITY, Dec. 4.—Mary Parnell, colored, living in Astoria, was arraigned in court yesterday, charged with keeping a baby farm. During the past three months seventeen infants have been found on the door steps of houses in this city, and the police are sanguine of fixing the charge of abandonment in all cases upon Mrs. Parnell and of unearthing some unwholesome places in New York.

Sugar Trust Cases.

NEW YORK, Dec. 4.—Gen. Roger A. Pryor, for the people of the state of New York, this morning, opened the sugar trust prosecution before Judge Barrot, in the special term of the supreme court. The particular trust under consideration to-day is that of the North River Sugar Refining company.

The Supposed "Ripper."

NEW YORK, Dec. 4.—Dr. Tumblety, who was suspected of being connected in some way with the Whitechapel murders in London, arrived in this city yesterday from Harve. The police have him under surveillance.

An Embezzlement.

WILLIAMSPORT, Pa., Dec. 4.—R. I. Crum, manager of R. G. Dunn & Co.'s commercial agency, was arrested last night charged with embezzling $2,400 from the company. Crum has been here several years.

The Academy.

The Academy opened to a good house last night, with one of the best performances yet seen on that stage. The bill this week is a varied one and introduces no end of novelty performers. Sep Earl, the musical wonder, is one of the attractions, and Frank Burt, the famous balancer, is another. His act alone is worth the price of admission. Charles Monock, as clever a little song and dance artist as can be found in the profession, is another of the attractions. In fact all the performers this week excel in their particular acts, and the show should draw large houses.

Miss Nannie McLaughlan is at Duluth visiting her brother, Mr. Neil McLaughlan.

Elizabeth Raver sues Albert Carpenter, et al., for $200. T. W. Wilson is counsel.

EDITORIAL COMMENT

Of the Leading New York Papers on the President's Message.

NEW YORK, Dec. 4.—The *Sun* in its editorial comments on the president's message, says: "The main fact is that nowhere does Mr. Cleveland specify or even suggest any line of policy to be pursued in dealing with the question of surplus and taxes."

The *Herald* says: "It is a plain, business like report of the condition of the various departments, prefaced by paragraphs in which Mr. Cleveland speaks for more impartial laws and stricter adherence to the constitutional methods so that monopolies and trus s shall not increase but that all Americans shall have a fair chance in the race of life. What he says on this head is sensible and well put, but as the people have just elected to power a party, which favors monopolies, trusts and capitalistic combinations, Mr. Cleveland is as one crying in the wilderness."

The *Tribune* says: "Its crude or awkward phrases count for nothing, in comparison with its mischievous tone. It would not be out of place for the senate to sharply rebuke the chief magistrate, who attempts to inflame blind prejudice and lawless passion against employers generally, whatever their personal worth or merit, and against institutions and laws which the people have recently sustained by their verdict."

The *Times* says: "The wholesome and important truths lying at the base of some of Mr. Cleveland's remarks are, in our judgement, somewhat obscured by overstatement. Nor is the reference to 'communism of combined wealth and capital' an accurate or happy one. If there be any idea at the bottom of communism, it is that all possessions shall be in common, and that is the opposite of what the wealthy men, who thrive by the favor of the tariff, believe or practice."

SCHRIBER'S LUCK.

Bash & Co. the value of the grain and received the team driven to this city by the thieves. The state of Indiana has yet to deal with the prisoners.

It is a rare accumulation of anatomical, physiological, scientific, natural and artistic marvels, mysteries, and wonders of this country. The museum is open to gentlemen only, with a matinee for ladies on Friday afternoon of each week from 2 to 6 o'clock.

There was a meeting of the original members of the gallant Hendricks' club in the rooms over Heilbronner's cigar store and saloon, on West Berry street last night. The plan of organization adopted at a former meeting was modified and popularized and the officers elected then, it is said, will resign. They did not seek the honors and hence do not desire to retain them. The Hendricks club, as constituted last night, will incorporate later on and ought to have a magnificent organization of young democrats. Their first act, however, should be to get away from the saloon influence of their present place of meeting. They enjoy a reputation to-day as the first political club in the state and should retain it. THE SENTINEL will lend them every encouragement.

To Assist Nature

In restoring diseased or wasted tissue is all that any medicine can do. In pulmonary affections, such as Colds, Bronchitis, and Consumption, the mucous membrane first becomes inflamed, then accumulations form in the air-cells of the lungs, followed by tubercles, and, finally, destruction of the tissue. It is plain, therefore, that, until the hacking cough is relieved, the bronchial tubes can have no opportunity to heal. Ayer's Cherry Pectoral

Soothes and Heals

the inflamed membrane, arrests the wasting process, and leaves no injurious results. This is why it is more highly esteemed than any other pulmonary specific.

L. D. Bixby, of Bartonsville, Vt., writes: "Four years ago I took a severe cold, which was followed by a terrible cough. I was very sick, and confined to my bed about four months. My physician finally said I was in consumption, and that he could not help me. One of my neighbors advised me to try Ayer's Cherry Pectoral. I did so, and before I had taken half a bottle was able to go out. By the time I had finished the bottle I was well, and have remained so ever since."

Alonzo P. Daggett, of Smyrna Mills, Me., writes: "Six years ago, I was a traveling salesman, and at that time was suffering with

Lung Trouble.

For months I was unable to rest nights. I could seldom lie down, had frequent choking spells, and was often compelled to seek the open air for relief. I was induced to try Ayer's Cherry Pectoral, which helped me. Its continued use has entirely cured me, and, I believe, saved my life."

TUESDAY, DEC. 4, 1888.

MR. CLEVELAND is every inch a statesman, and no less a hero.

No ONE will read President Cleveland's message with greater interest than General Harrison. It is to him food for thought.

FRANCIS MURPHY, the great temperance evangelist, is now conducting a series of meetings at Indianapolis for the Young Men's Christian association of that city.

A CALIFORNIA widow had plans made for a $50,000 monument for her late departed, but when the lawyers got through fighting over the estate the widow was doing housework at $2 a week for the man who designed the monument.

THE treasury department statement shows the total net cash in the treasury at present to be $612,784,621.91. The total public debt, interest bearing and non-interest bearing, is now $1,680,919,706.23, and there is interest now accrued thereon to the amount of $10,057,544.49, making the total obligation $1,690,975,250.79.

THE receipts from the Dow law in Ohio, taxing saloons, for the first six months of the year amounted to $1,116,384.30, of which the state's share was $223,276.86, equal to $450,500 for the year. In addition to this increase in the treasury, the Dow law has cut down the number of saloons to less than 9,000 in the state.

THE Indianapolis *Journal*, by its correspondent at Washington, notes the fact that United States Marshal Hawkin's commission expires about August 3, 1890, and that of Hon. W. D. Hunter, the collector of internal revenue in this district, about April 16, 1890. This information, from its source, is significant. It means that applications can be deferred.

COMMISSIONER MILLER reports that the American people consumed more than 70,000,000 gallons of whisky last year, besides 24,680,219 barrels of beer. There is no cause for the people to be alarmed for fear the supply will not hold out, for there are over 93,000,000 gallons of whisky on hand at present in the various warehouses throughout the country.

EMPEROR FRANCIS JOSEPH celebrated to-day the fortieth anniversary of his ascent to the throne. He forbids the holding of public festivals in honor of the occasion. Recently he remarked to Count Von Taafe that to hold a jubilee on the fiftieth anniversary of his accession would be proper enough, but that to publicly celebrate the fortieth anniversary would be sheer nonsense. He passes the day in absolute solitude at castle miramar with the empress.

THE PRESIDENT'S MESSAGE.

President Cleveland's last message is the crowning act of his official career.

No state paper in the history of the nation can have commanded greater attention, consideration and admiration than will the farewell words of a chief executive who has dared to do his honest duty, his whole duty and nothing but his duty, though his own people proclaimed against him.

The message comes, too, at a time when political prejudice slumbers, so that men will give due weight to its words, deep thought to its suggestions and heed to its great truths.

Mr. Cleveland considers the whole range of public questions and handles each subject with that clear, concise and unswerving fairness that has marked his every public utterance and characterized his every public act.

He touches the tariff tax problem with greater vigor than ever and places its far reaching iniquities and the blighting monopolies that follow in its wake before the people in a manner that must arouse them to a proper realization of the dangers that threaten institutions dearest and closest to them. His plea is but for such a plain, honest and just revision of the tariff tax laws as will lessen the burdens of the people and bestow an equal and proportionate protection to the industries and labor of the land.

He administers a stinging blow to the greedy, grasping trusts and combinations that rob trade of its merits, competition of its blessings and refuse to relinquish an iota of their ill gained advantage that it might accrue to the toiling masses and people of the country. He arrays the justice and injustice of this all absorbing topic in a way to carry conviction to every honest man and regret to each honest heart for the opportunities lost in the defeat of the foremost advocate of reform.

He reiterates his position on the Canadian fisheries, disposes of Lord Sackville and the British incident with due diplomacy and effective argument, takes up the public land question for the people as against speculators and corporations and treats the pension laws in a way to silence honest criticism and put to sleep the rascally motives of partisan tricksters.

It is a great paper; teeming with advanced thoughts, bristling with facts, laden with wise suggestions, refreshingly ripe and golden with great truths that time cannot efface or palliate.

THE SENTINEL commends it to every citizen, and only asks its reading, for it contains its own worth.

CATHOLIC SCHOOLS.

The annual report of the Fort Wayne diocese parocial schools is out and its figures will interest. The report is prefaced by an address to Rt. Rev. Bishop Dwenger, outlining some recommendations by the board and the bishop replies with sectarian observations and criticisms in his forcible, fearless style.

The Fort Wayne school board is composed of the following reverend gentlemen:

Reports are presented from fifty schools. The total number of pupils enrolled is 7,300, of which 3,580 are boys and 3,720 are girls, leaving the girls 140 in excess of the boys. The boys exceed the girls in twenty-one schools, while the girls are more numerous in the other twenty-nine schools.

Fort Wayne has five schools, with 1,254 pupils? (St. Mary's, one of the largest in the city, is not reported.) South Bend has four, with 1,005. Logansport has five, with 862. Lafayette has three, with 589. Other places have only one school each. The Fort Wayne Cathedral school, with 710 pupils, is the largest, while that of St. Vincent's, in Allen county, is the smallest in the diocese, with only twenty-two pupils. There is no uniformity in the use of text books.

In nearly all the schools the tuition charged is very reasonable, in some instances being only fifty cents, while the average tuition is only seventy-five cents.

In a few cases the schools are supported from the church funds and are, therefore, free as regards any direct tuition. In all parishes the school year is ten months, usually divided into two equal terms.

The total number of teachers employed is 168. The chief orders in charge of the schools are, Sisters of Providence, Sisters of the Holy Cross, Sisters of Notre Dame, Sisters of St. Agnes and the Brothers of the Holy Cross.

Only fourteen secular teachers are engaged, nine of whom are ladies. There are 14,000 volumes in the libraries of the schools, making an average of 280 volumes to each school. Several have no libraries.

German is reported as being taught in twenty-one of the schools, and Polish in one, that of the Sacred Heart, at Otis, Laporte county.

FRANCIS MURPHY.

The Great Temperance Evangelist Again Makes His Bow in Indiana.

Mr. Francis Murphy, the greatest living worker in the temperance field, is conducting a revival meeting at Indianapolis, under the auspices of the Y. M. C. A.

He will be recalled in Fort Wayne as having inaugurated a temperance reformation that sent happiness to hundreds of families and still exerts a benign influence through his steadfast converts.

In an interview at Indianapolis, the blue ribbon apostle remarked:

"I don't know how long I will stay," he said, shaking hands vigorously with the reporter, "but with God's help I hope to do some good while here. You know I have thought it best to carry on my temperance work in my own way, without any effort at compulsion or enforcement, simply appealing to men's better natures, their love for others and their own self respect, to save them from the curse of intemperance. I have concluded I could do more good by keeping away from prohibition or third-party movements than by connecting myself with them, and for this reason I have kept quiet during the recent political campaign, getting at the same time the benefit of much needed rest and recreation. Now that the political turmoil is over, I have taken the field again with malice toward none and charity for all, and trust that under Providence I may have some measure of my old time success in winning back my brethren who have fallen into evil ways, and helping to start them afresh in paths of peace and prosperity."

The Fort Wayne Y. M. C. A. should by all means endeavor to secure a return of Mr. Murphy to this city. He could build up a temperance sentiment beyond all expectations.

THE MILITIA CALLED OUT

To Quell the Mahoning Road Disturbances at That Ottawa Crossing.

FINDLAY, O., Dec. 4.—A renewal of the trouble between the New York, Mahoning & Western railroad at Ottawa with the Cincinnati, Hamilton & Dayton railroad over a crossing occurred again Saturday night and the local militia was again compelled to patrol the scene of the disturbance to prevent trouble and bloodshed. Both sides were quiet yesterday but after midnight it was feared the war would begin again.

In the attributes of morality, as well as magnitude, the great George Wilson Minstrel company stands higher than any in the minstrel line, as pleasing and acceptable to the most refined and absolutely the only one in which there is nothing to condemn. It bears the first fruits of a long life's efforts to provide at once wholesome and cheap amusement for all. This season and the coming season, Mr. George Wilson is determined it shall outshine itself, as an example for others to emulate. At the Temple opera house Wednesday evening. Watch out for the big parade and the first rendition in this city of the celebrated "Wilson March."

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

SCRIBNER'S MAGAZINE FOR 1889.

The publishers of SCRIBNER'S MAGAZINE aim to make it the most popular and enterprising of periodicals, while at all times preserving its high literary character. 25,000 new readers have been drawn to it during the past six months by the increased excellence of its contents (notably the railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.

The *Railroad Articles* will be continued by several very striking papers; one especially interesting by Ex-Postmaster General Thomas L. James on "The Railway Postal Service." Illustrated.

MR. ROBERT LOUIS STEVENSON'S serial novel, "The Master of Ballantrae," will run through the greater part of the year. *Begun in November.*

A correspondence and collection of manuscript memoirs relating to J. F. Millet and a famous group of modern French Painters will furnish the substance of several articles. Illustrated.

The brief end papers written last year by Robert Louis Stevenson, will be replaced by equally interesting contributions by different famous authors. Mr. Thomas, Bailey Aldrich will write the first of them for the January number.

Many valuable Literary Articles will appear; a paper on Walter Scott's Methods of Work, illustrated from original MSS., a second "Shelf of Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy. Illustrated.

Articles on Art Subjects will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Blashfield, Austin Dobson, and many others. Illustrated.

Fishing articles describing sport in the best fishing grounds will appear. Salmon, Winninish, Bass, and Tarpon are the subjects now arranged. The authors are well-known sportsmen. Illustrated.

Illustrated articles of great variety, touching upon all manner of subjects, travel, biography, description, etc., will appear, but not of the conventional commonplace sort. Illustrated.

Among the most interesting in the list of scientific papers for the year will be a remarkable article by Professor John Trowbridge, upon the most recent developments and uses of Photography. Illustrated.

A class of articles which has proved of special interest will be continued by a group of papers upon Electricity in its most recent applications, by eminent authorities; a remarkable paper on Deep Mining, and other interesting papers. Unique illustrations.

A special offer to cover last year's numbers, which include all the Railway Articles, as follows:

A year's subscription (1889) and the numbers for 1888, $4.50.

A year's subscription (1889) and the numbers for 1888, bound in cloth, $6.00.

ERIE MEDICAL CO., BUFFALO, N. Y.

Is better than any soap; handier, finer, more effective, more for the money, and in the form of a powder for your convenience. Takes, as it were, the fabric in one hand, the dirt in the other, and lays them apart—comparatively speaking, washing with little work. As it saves the worst of the work, so it saves the worst of the wear. It isn't the use of clothes that makes them old before their time; it is rubbing and straining, getting the dirt out by main strength. For scrubbing, house-cleaning, washing dishes, windows and glassware, Pearline has no equal.

Over One Million Families Use it.

Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and besides are dangerous. PEARLINE is never peddled, but sold by all good grocers. 126 Manufactured only by JAMES PYLE, New York.

MONROEVILLE.

The Spiciest Gossip From That Thriving Town—Personal Gossip—Weddings.

Corn sells for thirty cents a bushel.

Sam Scott erected a fine brick residence on his farm last summer.

Monroe township holds its first teacher's institute next Saturday.

The Lutheran church at this place has been artistically decorated and painted.

Wm. Benson and Miss Kate Favery of Fort Wayne, were visiting friends here last week.

The Decatur *Journal* wants the editor of the Monroeville *Breeze* to name the Decatur dude who left his best Monroeville girl in solitude while he refreshed himself in a house of call. The *Breeze* has a grudge against the Decatur boys, but it can't name the party in question.

The Thanksgiving supper given by the ladies of the Christian church in Heller's hall, was largely attended.

We understand that Emanual Lesh, of Tulu, will discontinue his saloon business at that place on the 14th inst.

A petition is in circulation asking that Frank Freeze, one of our best republican citizens, be appointed our next postmaster. As the democrats will have to "step down and out," and the spoils belongs to the party," no better selection could be found. The appointment of Mr. Freeze would no doubt receive the approbation of the majority of our democrats.

The interior of the Marquardt church has been beautifully papered and painted, and to defray the expenses necessitated by the same, the members of that congregation will give an oyster supper in the church next Saturday evening. Success should crown their efforts.

Mr. John Gibson, a prosperous farmer of Madison township, and Miss Sarah Gressley were united in matrimony by Rev. Bowen, at the Lutheran parsonage. The boys gave them the usual serenade Monday evening, at his pleasant home, and the boys are to-day smoking at his expense.

The M. E. church is being repaired, but a better plan would have been to build a new edifice. The members will say so later.

A pleasant birthday party was given at the residence of Philip Marquardt last Saturday evening, in commemoration of the twentieth anniversary of the birth of his daughter, Lizzie.

J. J. Marquardt and Douglas Miller have purchased a tile mill at Warsaw, and to-day shipped it here with the intention of starting a tile yard in the Marquardt neighborhood next spring.

Billy Overly's democratic rooster is dead. He tells us that he fed it "high tariff" to excess, and from want of stimulant, slowly passed away. He is in search of "one" of the same kind, and says next time he will feed plenty of stimulant—free whisky. Billy is a jovial fellow and a true democrat.

ENLIGHTENED.

Monroeville, Dec. 1, 1888.

"What wound did ever heal but by degrees?" That's an easy conundrum! Why the thousand aches and pains, and bruises daily cured by Salvation Oil, the greatest cure on earth for pain.

IN THE DRY GOODS STORE.

A lady and her little daughter were shopping. The child sat on a counter-stool and watched the people coming and going. Presently she saw a lady elegantly dressed who stopped at their counter and handed a waterproof and umbrella to the young girl in charge.

"Take care of these things until I call for them," she said in an autocratic tone. Then she sailed away.

The bright eyes of the child followed her. The little face wore a look of distress.

"Why, mamma," she whispered, "she didn't even say please."

Sooner than she expected to, the lady returned.

"I will take my things," she said.

There was some little delay in finding them.

"I hope you haven't lost or misplaced them," she said in a severe tone to the young girl.

No. Here they were. Madam took them coolly and without a word walked off.

This was more than the child could stand. Leaning over so that her sweet young face came close to that of the girl clerk she said, sweetly, "Thank you!"

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

SEVEN IN THE SCRIPTURES.

Undoubtedly seven is the sacred number. There are seven days of creation; after seven days respite the flood came; the years of famine and plenty were in cycles of seven; every seventh year the Sabbath of rest; after every seven times seven years came the jubilee; the feasts of unleavened bread and of tabernacles were observed seven days.

The golden candlesticks had seven branches; seven priests with seven trumpets surrounded Jericho seven times and seven times on the seventh day; Jacob obtained his wives by servitudes of seven years; Samson kept his nuptials seven days, and on the seventh day he put a riddle to his wife, and he was bound with seven green withes and seven locks of his hair were shaved off; Nebuchadnezzar was seven years a beast; Shadrach and his two companions in misfortune were cast into a furnace heated seven times more than it was wont.

In the New Testament nearly everything occurs by seven, and at the end of the sacred volume we read of seven candlesticks, seven spirits, seven seales, seven stars, seven thunders, seven vials, seven plagues, seven angels, and a seven-headed monster. Such are merely a few instances of the sacred use of the number common to all nations and all religions.—*Christian Observer.*

POND'S EXTRA CT.

LETTERS FROM THE GOVERNORS.

It is a well-known fact that POND'S EXTRACT is used and recommended by more distinguished people than any preparation or remedy extant.

It is used in the household of the President as well as that of the humblest citizen; by members of the army and the navy, the Bar and the Bench, the pulpit and the press—all ranks and classes of people. To further illustrate this fact we append a few of the more recent letters from Governors of different States:

The Governor of New Hampshire.

GENTLEMEN: POND'S EXTRACT has long had a place in the medicine chest of my family. I assure you that we have found it a ready and valuable agent to relieve pain in many cases, and that very promptly. We cannot well keep house without it.

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with best makers of all countries, they have invariably taken the highest honors. Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. "The Gladstone" is made of high-grade, hard rolled metal (all parts interchangeable), and in elegant designs for Dining or Parlor Table, the Study, Drawing-room, Hall or Chamber. Finished in either Gold bronze, Nickel or Antique bronze. **Every home should have it.**

We were closed on Thanksgiving Day. Did you know it?

We are open now until Chrstmas, Sundays excepted.

Our Mr. L. B. Root, in New York, writes: "The market is slow, dull." That means forced sales on the part of importers and jobbers, which means lower prices for us, big bargains for you.

On Tuesday last we had a special sale of plain China silks. The price for that day was also special. It was amusing and gratifying, too, to see the way in which they were "snapped up," and the appreciation of our friends by carrying them off. Now we have another special bargain for you, this sale to continue while this lot lasts.

THE RAILROAD BUDGET.

The Day's Mirror of Events as They Happen Around the Railroads and Manufactories.

Many of the employes of the Bass works own their own homes.

The Pittsburg shops are now getting a large amount of castings from the Bass works.

The Bass works are still engaged on the new engine for the electric light works.

Gus. Prill, of the Bass works, has moved into his new residence on Hayden street.

Henry Lohmeyer, of the Bass moulding rooms, is off duty to-day on account of sickness.

Thomas Underwood, foreman of the polishing room of N. G. Olds & Son's has resigned.

Harry L. Worden, has been appointed city freight collector by Agent Moderwell of the Nickel Plate.

The railroad Y. M. C. A. building is being rapidly repaired. When finished the association will have magnificent rooms.

The Fort Wayne Furniture company will shortly build a new story frame building near their factory. It will be used as a store room.

The plaining and iron machine department of the Pittsburg car shops are now working at night. The employes get in thirteen hours a day.

Supt. C. D. Gorham, of the Nickel Plate, has opened temporary headquarters in Chicago, until Mrs. Gorham's condition is improved.

The Wabash is asking for bids on 1,000 box cars. Within the last week five Indiana roads have also asked for bids on large numbers of cars.

The wheel rooms at the Bass works commenced working a full force in that department this morning and is now turning out 380 car wheels a day.

On Thanksgiving day the track of the Dayton & Toledo road between Dayton and Delphos was widened to standard gauge, and now the company proposes to extend the road to this city.

All the lines of the Pennsylvania company west of Pittsburg, for the ten months of 1888, show a surplus over all liabilities of $27,507, being a loss, as compared with the corresponding period of 1887, of $1,000,754.

F. D. Cassanave, superintendent of motive power and machinery of the northern division of the Pennsylvania company is off on a tour of inspection to the company's shops at Allegheny, Altoona and other places.

Chas. E. Taylor, machinist at the Bass works, was compelled to leave the shops yesterday, on account of sickness and is now confined to his home with an attack of fever and ague. Charley is a great favorite at the shops and his friends miss him.

Alfred Morrison, who for some years has been general roadmaster of the western division of the Pittsburg, Fort Wayne & Chicago road, has retired from that position to engage in business in Chicago, and the employes on the line last week presented him with an elegant gold watch and chain.

While the gains of the Pennsylvania road proper and its western lines, in the first ten months of this year fell $680,000 below those of the corresponding period in 1887 they are still $1,190,000 greater than were the profits above operating expense and fixed charges in the corresponding ten months of 1886.

When the Chicago, Burlington & Quincy strike was commenced, the treasury of the Brotherhood of Locomotive firemen was rather low, and the Brotherhood of Locomotive engineers voted to donate $75,000 to the former, paying it in installments. On the first of this month the last installment was paid.

The Southwest dispatch, a new fast-freight line just organized, will operate over the Toledo, St. Louis and Kansas City, the Nickel Plate, the West Shore, and the Fitchburg railroads, and will probably be extended to include other roads in the west and southwest. The headquarters of the road will be in Toledo.

John Fogle, of the Wabash railway, died Sunday, at his home, in Toledo. He was the oldest employe of the Wabash railway in point of service, having worked continually as a bolt cutter for that company since he was thirteen years old, being forty-eight years old at the time of his death, Although he has been sick for twenty-seven years, he was constantly at work up to Wednesday last, when he was forced to lay off.

One of our exchanges has this to say: "The Wabash shop employes of Fort Wayne fear that the projected discharge of Receiver McNulta may result in the purchase of the main line of the Wabash Western, and in that case the repair shops in that city may suffer in the volume of their work. Just now there is increased activity in the Fort Wayne shops of the Wabash, and engines of the Butler branch, which have hitherto been repaired at the shops at Delrey, a short distance out of Detroit, are being taken to Fort Wayne for repairs."

Fred Bauermaster, of the Bass works, is doing honors over the arrival of a bran new daughter at his home, on John street.

G. W. Stevens, assistant general superintendent of the Wabash, passed through the city yesterday, with other officials, on a special car.

J. T. Leach and Will Cherry, of the boiler department, and Wm. Rhodes, of machine department of the Pittsburg shops, left this morning to inspect the boilers along the line of the Pennsylvania road, from Bucyrus, Ohio, to Chicago. It generally requires about two weeks to complete the inspection and at this season of the year the task is an unpleasant one.

Both Houses Settle Down to Business —The Senate Engage in the Consideration of the Tariff Bill.

WASHINGTON, Dec. 4.—The speaker laid before the house the annual reports of the secretary, treasurer and the comptroller of currency. They were referred.

Mr. Taulbe offered a resolution for the investigation of the charges against the commissioners of the District of Columbia. Referred.

Mr. MacDonald, of Minnesota, presented the petition of the citizens of north Dakota, south Dakota and Montana for immediate admission into the union, and for constitutional conventions in north Dakota, Washington Territory and New Mexico. It was referred to the committee on territories.

SENATE.

Numerous bills were introduced and referred, including one for the construction of two steel rams, to be armed with heavy rifle dynamite guns, and one for the constauction of two steel cruisers to be armed with dynamite guns.

Mr. Frye moved to proceed to the consideration of the Union Pacific settment bill, but yieided to allow the consideration of the tariff bill.

On motion of Mr. Vance the tariff bill was postponed until to-morrow, and the senate adjourned.

THE DILL BROTHERS.

One of Them Breaks Out in a Fresh Spot and is Now Violently Insane.

HUNTINGTON, Dec. 4.—A commission of lunacy yesterday pronounced Jacob Dill, one of the religious maniacs mentioned in former dispatches, insane, and formal application has been made for his admission into the asylum. He again became violent to-day, and alternately prayed, sang, and cursed as he paced his cell in the jail. Not content with this, he demanded to be taken to the river that he might baptize himself, and being refused he tore his clothing into shreds, and made a bedlam of the place. His brother David has quieted down and will be taken to his home in Ohio. They now partake of food having done pennance for their sins.

HE BECOMES INSANE!

And Wants to Kill Three of His Children.

WABASH, Dec. 4.—A most remarkable hallucination has seized upon Joe Wigner, of this city, who has several times stated that he would kill three of his children. A guard is being kept over Wigner constantly and his every motion watched. He is not believed to be the victim of intoxicants, as he is abstemious in his habits. The case is a peculiar one.

Freight Rates.

CHICAGO, Dec. 4.—The Transcontinental association has finished its labors. A system of graded rates was agreed upon on traffic going to the Pacific coast. The highest class of differential rate in favor of Chicago will be three cents less than from New York, while the lowest class will be ten cents less. Cincinnati, Toledo and Detroit are made twenty-five cents less than New York on the highest class and five cents less on the lower class.

Labor Meetings.

COLUMBUS, O., Dec. 4.—Separate meetings were held by the delegates representing the federation of miners and the national district assembly 135, K. of L. in proposed joint session, to-day. The federation men passed a resolution favoring one national organization. The Knights had not reached a decision at 1 o'clock.

Tobacco Men.

CINCINNATI, Dec. 4.—A meeting of prominent tobacco manufacturers of the United States is in progress here to-day. The proceedings are private, but the members say the business merely relates to questions affecting the tobacco market here and at Louisville.

The Billiard Tournament.

CHICAGO, Dec. 4.—Last night's games of the billiard tournament resulted as follows:

First game—Moulds 200, highest run 63; Ives 152, highest run 28.

Second game—Carter 200, highest run 43; Hatley 182, highest run 31.

Appointed Trustee.

PITTSBURG, Dec. 4.—In the United States court to-day, J. N. Hutchinson, of New York, was appointed trustee of the various mortgages of the Pittsburg, Fort Wayne and Chicago Railroad company, to succeed G. W. Cass and Samuel J. Tilden.

A STATE SENSATION.

Chamberlain, the Murderer of Ida Wittenberg, Ends His Career in the Logansport Jail.

LOGANSPORT, Ind., Dec. 4.—Chamberlain, the murderer of Ida Wittenberg, has paid the penalty of his crime with his own hand. Yesterday morning, at about 6 o'clock, his body was found hanging to the door of his cell by a piece of bed ticking torn from his cot. With this strip thrown over the upper cell of his door and well fastened about his neck, he made a quick move by raising his feet and dropping toward the floor. It is supposed that several attempts were made before the work was finished, yet the desperate murderer clung to his work with a persistency and tenacity that is astonishing. By raising his feet perpendicularly backward and holding them there with his hands he continued thus choking himself until he became so exhausted that a final swing of this kind produced strangulation, and the victim expired.

Chamberlain was twenty-four years old and lived on a farm with his parents, near Reynolds, White county. He fell in love with the pretty Miss Wittenburg, and endeavored to pay attentions to her. But she repulsed him. In a fit of jealousy he hid himself in the yard at her home, and as she said "good night" to her favored escort, he caught her and after a struggle shot her in the mouth, from which she died. He escaped, but was captured. While in jail at Monticello he made a murderous assault on the sheriff and nearly killed him. Sometime afterwards he refused to eat anything and acted like an insane person, but the general belief was that he was shamming. He was not a bad or vicious young man so far as known.

The case was brought to Logansport on a change of venue, and the trial had progressed two days.

Natural Gas Troubles at Wabash.

WABASH, Dec. 4.—An extra session of the city council was held last night to consider an alleged violation of the schedule of rates fixed by ordinance by the Wabash natural gas company. It is stated that exorbitant rates are being exacted of consumers, many of whom are very sore toward the company. The mayor was directed to notify the gas people to supply gas at the schedule rates, and, refusing to do so by noon to-morrow, an injunction suit to prevent the company doing business will be filed. Residents are being requested to hold off in signing contracts until the trouble is adjusted.

Railroad Stock Taxable.

CINCINNATI, Dec. 4.—Judge Peck, of the superior court, on an application by a holder of the Dayton and Michigan railroad's preferred stock, for an injunction preventing the collection laid by the county officers, has decided that such stock is taxable. Certificates of stock, he says, guarantee regular dividends to holders. This guarantee is secured by mortgage. Holders of this stock do not have the right to vote, the court therefore holds they are not stockholders, but creditors of the road and refuses an injunction.

Not Settled Yet.

NEW YORK, Nov. 4.—It is officially announced on Wall street that all negotiations for the settlement of the railroad troubles west and southwest of Chicago, have been broken off and the general clearing house plan has fallen through. A committee, headed by President Winslow, of the St. Louis and San Francisco road, is still in existence, but has not yet considered any new plan. The failure of the Clearing house scheme was caused by the opposition of President Hughitt, of the Northwest road.

A Burglar Caught.

ALMA, Mich., Dec. 4.—Deputy Sheriff Strong had an exciting and successful chase in the woods near here yesterday after John Miller, who was wanted for an alleged burglary. Miller was taken to St. Louis, where his examination is to be held.

Small Pox.

CHICAGO, Dec. 4.—South Chicago is greatly alarmed over the discovery of two cases of small pox on board the steamer W. H. Gratwick, which arrived from Buffalo, coal laden, November 27.

Killed Himself.

TROY, N. Y., Dec. 4.—Theodore E. Haslehurst, the post grand commander of the Grand commandery of Knights Templar, of the state of New York, shot and killed himself this morning.

The Weather.

WASHINGTON, Dec. 4.—Indiana—Fair, warmer.

FOR THEIR SAKE!

A Railroad Flagman Loses His Life in Saving Two Girls From Death—A Gambler Shot.

CANAJOHARIE, N. Y., Dec. 4.—As the fast mail whizzed through Herkimer this morning, two girls were on the track, and in danger of being run over. Flagman Wolver rushed to their rescue, and saved them, but he himself was killed.

GAMBLER SHOT.

CHICAGO, Dec. 4.—Peter O'Niel, a gambler, was fatally shot last night by Edward Hill, a saloon-keeper. The latter claims O'Neil insulted his wife.

STOLE RAZORS.

A Barber Shop Touched Last Night.

Some time last night a sneak thief entered the barber shop of N. C. Browand, on Calhoun street, and selected ten of his choicest razors, all of which he appropriated.

He left the old ones behind. An ex-employe is suspected.

Baby Farming.

LONG ISLAND CITY, Dec. 4.—Mary Parnell, colored, living in Astoria, was arraigned in court yesterday, charged with keeping a baby farm. During the past three months seventeen infants have been found on the door steps of houses in this city, and the police are sanguine of fixing the charge of abandonment in all cases upon Mrs. Parnell and of unearthing some unwholesome places in New York.

Sugar Trust Cases.

NEW YORK, Dec. 4.—Gen. Roger A. Pryor, for the people of the state of New York, this morning, opened the sugar trust prosecution before Judge Barrot, in the special term of the supreme court. The particular trust under consideration to-day is that of the North River Sugar Refining company.

The Supposed "Ripper."

NEW YORK, Dec. 4.—Dr. Tumblety, who was suspected of being connected in some way with the Whitechapel murders in London, arrived in this city yesterday from Harve. The police have him under surveillance.

An Embezzlement.

WILLIAMSPORT, Pa., Dec. 4.—R. I. Crum, manager of R. G. Dunn & Co.'s commercial agency, was arrested last night charged with embezzling $2,400 from the company. Crum has been here several years.

The Academy.

The Academy opened to a good house last night, with one of the best performances yet seen on that stage. The bill this week is a varied one and introduces no end of novelty performers. Sep Earl, the musical wonder, is one of the attractions, and Frank Burt, the famous balancer, is another. His act alone is worth the price of admission. Charles Monock, as clever a little song and dance artist as can be found in the profession, is another of the attractions. In fact all the performers this week excel in their particular acts, and the show should draw large houses.

Miss Nannie McLaughlan is at Duluth visiting her brother, Mr. Neil McLaughlan.

Elizabeth Raver sues Albert Carpenter, et al., for $200. T. W. Wilson is counsel.

Before Judge O'Rourke: John Leykauf et al. vs. Christ Werner, judgment for plaintiff for $285.61; Newton D. Doughman vs. Louis Certia, judgment for plaintiff for $83.50. The claim docket will be called Thursday.

EDITORIAL COMMENT

Of the Leading New York Papers on the President's Message.

NEW YORK, Dec. 4.—The *Sun* in its editorial comments on the president's message, says: "The main fact is that nowhere does Mr. Cleveland specify or even suggest any line of policy to be pursued in dealing with the question of surplus and taxes."

The *Herald* says: "It is a plain, business like report of the condition of the various departments, prefaced by paragraphs in which Mr. Cleveland speaks for more impartial laws and stricter adherence to the constitutional methods so that monopolies and trusts shall not increase but that all Americans shall have a fair chance in the race of life. What he says on this head is sensible and well put, but as the people have just elected to power a party, which favors monopolies, trusts and capitalistic combinations, Mr. Cleveland is as one crying in the wilderness."

The *Tribune* says: "Its crude or awkward phrases count for nothing, in comparison with its mischievous tone. It would not be out of place for the senate to sharply rebuke the chief magistrate, who attempts to inflame blind prejudice and lawless passion against employers generally, whatever their personal worth or merit, and against institutions and laws which the people have recently sustained by their verdict."

The *Times* says: "The wholesome and important truths lying at the base of some of Mr. Cleveland's remarks are, in our judgement, somewhat obscured by overstatement. Nor is the reference to 'communism of combined wealth and capital' an accurate or happy one. If there be any idea at the bottom of communism, it is that all possessions shall be in common, and that is the opposite of what the wealthy men, who thrive by the favor of the tariff, believe or practice."

SCHREIBER'S LUCK.

The Columbus Bank Teller Settles With His Former Employers.

DETROIT, Mich., Dec. 4.—Will Schriber, the absconding teller of the First national bank, of Columbus, Ind., made a partial settlement with President Lucas, of the bank, in Windsor, Ont., to-day, which nets him several thousand dollars.

Parties came here from Huntington county to-day to try and liberate Eberhart and Johnson, the clever seed thieves. They settled with the agrieved farmers in Huntington county, paid S. Bash & Co. the value of the grain and received the team driven to this city by the thieves. The state of Indiana has yet to deal with the prisoners.

The great Hartkupff's museum of anatomy is now to be seen at 246 Calhoun street. This collection of curiosities consists of wax figures, and probably cost in the neighborhood of $100,000. It contains over 2,000 models of the human body in health and disease. It is a rare accumulation of anatomical, physiological, scientific, natural and artistic marvels, mysteries, and wonders of this country. The museum is open to gentlemen only, with a matinee for ladies on Friday afternoon of each week from 2 to 6 o'clock.

"It is headed 'Do people eat too much?' Shall I put it in our paper?"

"*No!*" roared Col. Snort. "Wait till we get a chance to eat too much. I have never had one yet."—*Texas Siftings.*

There was a meeting of the original members of the gallant Hendricks' club in the rooms over Heilbronner's cigar store and saloon, on West Berry street last night. The plan of organization adopted at a former meeting was modified and popularized and the officers elected then, it is said, will resign. They did not seek the honors and hence do not desire to retain them. The Hendricks club, as constituted last night, will incorporate later on and ought to have a magnificent organization of young democrats. Their first act, however, should be to get away from the saloon influence of their present place of meeting. They enjoy a reputation to-day as the first political club in the state and should retain it. THE SENTINEL will lend them every encouragement.

To Assist Nature

In restoring diseased or wasted tissue is all that any medicine can do. In pulmonary affections, such as Colds, Bronchitis, and Consumption, the mucous membrane first becomes inflamed, then accumulations form in the air-cells of the lungs, followed by tubercles, and, finally, destruction of the tissue. It is plain, therefore, that, until the hacking cough is relieved, the bronchial tubes can have no opportunity to heal. Ayer's Cherry Pectoral

Soothes and Heals

the inflamed membrane, arrests the wasting process, and leaves no injurious results. This is why it is more highly esteemed than any other pulmonary specific.

L. D. Bixby, of Bartonsville, Vt., writes: "Four years ago I took a severe cold, which was followed by a terrible cough. I was very sick, and confined to my bed about four months. My physician finally said I was in consumption, and that he could not help me. One of my neighbors advised me to try Ayer's Cherry Pectoral. I did so, and before I had taken half a bottle was able to go out. By the time I had finished the bottle I was well, and have remained so ever since."

Alonzo P. Daggett, of Smyrna Mills, Me., writes: "Six years ago, I was a traveling salesman, and at that time was suffering with

Lung Trouble.

For months I was unable to rest nights. I could seldom lie down, had frequent choking spells, and was often compelled to seek the open air for relief. I was induced to try Ayer's Cherry Pectoral, which helped me. Its continued use has entirely cured me, and, I believe, saved my life."

TUESDAY, DEC. 4, 1888.

MR. CLEVELAND is every inch a statesman, and no less a hero.

NO ONE will read President Cleveland's message with greater interest than General Harrison. It is to him food for thought.

FRANCIS MURPHY, the great temperance evangelist, is now conducting a series of meetings at Indianapolis for the Young Men's Christian association of that city.

A CALIFORNIA widow had plans made for a $50,000 monument for her late departed, but when the lawyers got through fighting over the estate the widow was doing housework at $2 a week for the man who designed the monument.

THE treasury department statement shows the total net cash in the treasury at present to be $612,784,621.91. The total public debt, interest bearing and non-interest bearing, is now $1,680,-919,706.23, and there is interest now accrued thereon to the amount of $10,-057,544.49, making the total obligation $1,690,975,250.79.

THE receipts from the Dow law in Ohio, taxing saloons, for the first six months of the year amounted to $1,-116,384.30, of which the state's share was $223,276.86, equal to $450,500 for the year. In addition to this increase in the treasury, the Dow law has cut down the number of saloons to less than 9,000 in the state.

THE Indianapolis *Journal*, by its correspondent at Washington, notes the fact that United States Marshal Hawkin's commission expires about August 3, 1890, and that of Hon. W. D. Hunter, the collector of internal revenue in this district, about April 16, 1890. This information, from its source, is significant. It means that applications can be deferred.

COMMISSIONER MILLER reports that the American people consumed more than 70,000,000 gallons of whisky last year, besides 24,680,219 barrels of beer. There is no cause for the people to be alarmed for fear the supply will not hold out, for there are over 93,000,000 gallons of whisky on hand at present in the various warehouses throughout the country.

EMPEROR FRANCIS JOSEPH celebrated to-day the fortieth anniversary of his ascent to the throne. He forbids the holding of public festivals in honor of the occasion. Recently he remarked to Count Von Taafe that to hold a jubilee on the fiftieth anniversary of his accession would be proper enough, but that to publicly celebrate the fortieth anniversary would be sheer nonsense. He passes the day in absolute solitude at castle miramar with the empress.

THE PRESIDENT'S MESSAGE.

President Cleveland's last message is the crowning act of his official career.

No state paper in the history of the nation can have commanded greater attention, consideration and admiration than will the farewell words of a chief executive who has dared to do his honest duty, his whole duty and nothing but his duty, though his own people proclaimed against him.

The message comes, too, at a time when political prejudice slumbers, so that men will give due weight to its words, deep thought to its suggestions and heed to its great truths.

Mr. Cleveland considers the whole range of public questions and handles each subject with that clear, concise and unswerving fairness that has marked his every public utterance and characterized his every public act.

He touches the tariff tax problem with greater vigor than ever and places its far reaching iniquities and the blighting monopolies that follow in its wake before the people in a manner that must arouse them to a proper realization of the dangers that threaten institutions dearest and closest to them. His plea is but for such a plain, honest and just revision of the tariff tax laws as will lessen the burdens of the people and bestow an equal and proportionate protection to the industries and labor of the land.

He administers a stinging blow to the greedy, grasping trusts and combinations that rob trade of its merits, competition of its blessings and refuse to relinquish an iota of their ill gained advantage that it might accrue to the toiling masses and people of the country. He arrays the justice and injustice of this all absorbing topic in a way to carry conviction to every honest man and regret to each honest heart for the opportunities lost in the defeat of the foremost advocate of reform.

He reiterates his position on the Canadian fisheries, disposes of Lord Sackville and the British incident with due diplomacy and effective argument, takes up the public land question for the people as against speculators and corporations and treats the pension laws in a way to silence honest criticism and put to sleep the rascally motives of partisan tricksters.

It is a great paper; teeming with advanced thoughts, bristling with facts, laden with wise suggestions, refreshingly ripe and golden with great truths that time cannot efface or palliate.

THE SENTINEL commends it to every citizen, and only asks its reading, for it contains its own worth.

Rev. T. E. Walsh, C. S. C., Notre Dame.

Rev. W. Berg, Shererville.

Reports are presented from fifty schools. The total number of pupils enrolled is 7,300, of which 3,580 are boys and 3,720 are girls, leaving the girls 140 in excess of the boys. The boys exceed the girls in twenty-one schools, while the girls are more numerous in the other twenty-nine schools.

Fort Wayne has five schools, with 1,254 pupils? (St. Mary's, one of the largest in the city, is not reported.) South Bend has four, with 1,005. Logansport has five, with 862. Lafayette has three, with 589. Other places have only one school each. The Fort Wayne Cathedral school, with 710 pupils, is the largest, while that of St. Vincent's, in Allen county, is the smallest in the diocese, with only twenty-two pupils. There is no uniformity in the use of text books.

In nearly all the schools the tuition charged is very reasonable, in some instances being only fifty cents, while the average tuition is only seventy-five cents.

In a few cases the schools are supported from the church funds and are, therefore, free as regards any direct tuition. In all parishes the school year is ten months, usually divided into two equal terms.

The total number of teachers employed is 168. The chief orders in charge of the schools are, Sisters of Providence, Sisters of the Holy Cross, Sisters of Notre Dame, Sisters of St. Agnes and the Brothers of the Holy Cross.

Only fourteen secular teachers are engaged, nine of whom are ladies. There are 14,000 volumes in the libraries of the schools, making an average of 280 volumes to each school. Several have no libraries.

German is reported as being taught in twenty-one of the schools, and Polish in one, that of the Sacred Heart, at Otis, Laporte county.

FRANCIS MURPHY.

The Great Temperance Evangelist Again Makes His Mow in Indiana.

Mr. Francis Murphy, the greatest living worker in the temperance field, is conducting a revival meeting at Indianapolis, under the auspices of the Y. M. C. A.

He will be recalled in Fort Wayne as having inaugurated a temperance reformation that sent happiness to hundreds of families and still exerts a benign influence through his steadfast converts.

In an interview at Indianapolis, the blue ribbon apostle remarked:

"I don't know how long I will stay," he said, shaking hands vigorously with the reporter, "but with God's help I hope to do some good while here. You know I have thought it best to carry on my temperance work in my own way, without any effort at compulsion or enforcement, simply appealing to men's better natures, their love for others and their own self respect, to save them from the curse of intemperance. I have concluded I could do more good by keeping away from prohibition or third-party movements than by connecting myself with them, and for this reason I have kept quiet during the recent political campaign, getting at the same time the benefit of much needed rest and recreation. Now that the political turmoil is over, I have taken the field again with malice toward none and charity for all, and trust that under Providence I may have some measure of my old time success in winning back my brethren who have fallen into evil ways, and helping to start them afresh in paths of peace and prosperity."

The Fort Wayne Y. M. C. A. should by all means endeavor to secure a return of Mr. Murphy to this city. He could build up a temperance sentiment beyond all expectations.

THE MILITIA CALLED OUT

To Quell the Mahoning Road Disturbances at That Ottawa Crossing.

FINDLAY, O., Dec. 4.—A renewal of the trouble between the New York, Mahoning & Western railroad at Ottawa with the Cincinnati, Hamilton & Dayton railroad over a crossing occurred again Saturday night and the local militia was again compelled to patrol the scene of the disturbance to prevent trouble and bloodshed. Both sides were quiet yesterday but after midnight it was feared the war would begin again.

In the attributes of morality, as well as magnitude, the great George Wilson Minstrel company stands higher than any in the minstrel line, as pleasing and acceptable to the most refined and absolutely the only one in which there is nothing to condemn. It bears the first fruits of a long life's efforts to provide at once wholesome and cheap amusement for all. This season and the coming season, Mr. George Wilson is determined it shall outshine itself, as an example for others to emulate. At the Temple opera house Wednesday evening. Watch out for the big parade and the first rendition in this city of the celebrated "Wilson March."

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

SCRIBNER'S MAGAZINE FOR 1889.

The publishers of SCRIBNER'S MAGAZINE aim to make it the most popular and enterprising of periodicals, while at all times preserving its high literary character. 25,000 new readers have been drawn to it during the past six months by the increased excellence of its contents (notably the railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.

The *Railroad Articles* will be continued by several very striking papers; one especially interesting by Ex-Postmaster General Thomas L. James on "The Railway Postal Service." Illustrated.

MR. ROBERT LOUIS STEVENSON'S serial novel, "The Master of Ballantrae," will run through the greater part of the year. *Begun in November.*

A correspondence and collection of manuscript memoirs relating to J. F. Millet and a famous group of modern French Painters will furnish the substance of several articles. Illustrated.

The brief end papers written last year by Robert Louis Stevenson, will be replaced by equally interesting contributions by different famous authors. Mr. Thomas, Bailey Aldrich will write the first of them for the January number.

Many valuable Literary Articles will appear; a paper on Walter Scott's Methods of Work, illustrated from original MSS., a second "Shelf of Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy. Illustrated.

Articles on Art Subjects will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Blashfield, Austin Dobson, and many others. Illustrated.

Fishing articles describing sport in the best fishing grounds will appear. Salmon, Winninish, Bass, and Tarpon are the subjects now arranged. The authors are well-known sportsmen. Illustrated.

Illustrated articles of great variety, touching upon all manner of subjects, travel, biography, description, etc., will appear, but not of the conventional commonplace sort. Illustrated.

Among the most interesting in the list of scientific papers for the year will be a remarkable article by Professor John Trowbridge, upon the most recent developments and uses of Photography. Illustrated.

A class of articles which has proved of special interest will be continued by a group of papers upon Electricity in its most recent applications, by eminent authorities; a remarkable paper on Deep Mining, and other interesting papers. Unique illustrations.

A special offer to cover last year's numbers, which include all the Railway Articles, as follows:

Is better than any soap; handier, finer, more effective, more for the money, and in the form of a powder for your convenience. Takes, as it were, the fabric in one hand, the dirt in the other, and lays them apart—comparatively speaking, washing with little work. As it saves the worst of the work, so it saves the worst of the wear. It isn't the use of clothes that makes them old before their time; it is rubbing and straining, getting the dirt out by main strength. For scrubbing, house-cleaning, washing dishes, windows and glassware, Pearline has no equal.

Over One Million Families Use it.

Beware Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline." IT'S FALSE—they are not, and besides are dangerous. PEARLINE is never peddled, but sold by all good grocers. 126 Manufactured only by JAMES PYLE, New York

MONROEVILLE.

The Spicy Gossip From That Thriving Town—Personal Gossip—Weddings.

Corn sells for thirty cents a bushel.

Sam Scott erected a fine brick residence on his farm last summer.

Monroe township holds its first teacher's institute next Saturday.

The Lutheran church at this place has been artistically decorated and painted.

Wm. Benson and Miss Kate Favery of Fort Wayne, were visiting friends here last week.

The Decatur *Journal* wants the editor of the Monroeville *Breeze* to name the Decatur dude who left his best Monroeville girl in solitude while he refreshed himself in a house of call. The *Breeze* has a grudge against the Decatur boys, but it can't name the party in question.

The Thanksgiving supper given by the ladies of the Christian church in Heller's hall, was largely attended.

We understand that Emanual Lesh, of Tulu, will discontinue his saloon business at that place on the 14th inst.

A petition is in circulation asking that Frank Freeze, one of our best republican citizens, be appointed our next postmaster. As the democrats will have to "step down and out," and the spoils belongs to the party," no better selection could be found. The appointment of Mr. Freeze would no doubt receive the approbation of the majority of our democrats.

The interior of the Marquardt church has been beautifully papered and painted, and to defray the expenses necessitated by the same, the members of that congregation will give an oyster supper in the church next Saturday evening. Success should crown their efforts.

Mr. John Gibson, a prosperous farmer of Madison township, and Miss Sarah Gressley were united in matrimony by Rev. Bowen, at the Lutheran parsonage. The boys gave them the usual serenade Monday evening, at his pleasant home, and the boys are to-day smoking at his expense.

The M. E. church is being repaired, but a better plan would have been to build a new edifice. The members will say so later.

A pleasant birthday party was given at the residence of Philip Marquardt last Saturday evening, in commemoration of the twentieth anniversary of the birth of his daughter, Lizzie.

J. J. Marquardt and Douglas Miller have purchased a tile mill at Warsaw, and to-day shipped it here with the intention of starting a tile yard in the Marquardt neighborhood next spring.

Billy Overly's democratic rooster is dead. He tells us that he fed it "high tariff" to excess, and from want of stimulant, slowly passed away. He is in search of "one" of the same kind, and says next time he will feed plenty of stimulant—free whisky. Billy is a jovial fellow and a true democrat.

ENLIGHTENED.

Monroeville, Dec. 1, 1888.

"What wound did ever heal but by degrees?" That's an easy conundrum! Why the thousand aches and pains, and bruises daily cured by Salvation Oil, the greatest cure on earth for pain.

IN THE DRY GOODS STORE.

A lady and her little daughter were shopping. The child sat on a counter-stool and watched the people coming and going. Presently she saw a lady elegantly dressed who stopped at their counter and handed a waterproof and umbrella to the young girl in charge.

"Take care of these things until I call for them," she said in an autocratic tone. Then she sailed away.

The bright eyes of the child followed her. The little face wore a look of distress.

"Why, mamma," she whispered, "she didn't even say please."

Sooner than she expected to, the lady returned.

"I will take my things," she said.

There was some little delay in finding them.

"I hope you haven't lost or misplaced them," she said in a severe tone to the young girl.

No. Here they were. Madam took them coolly and without a word walked off.

This was more than the child could stand. Leaning over so that her sweet young face came close to that of the girl clerk she said, sweetly, "Thank you!"—*Detroit Free Press.*

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

SEVEN IN THE SCRIPTURES.

Undoubtedly seven is the sacred number. There are seven days of creation; after seven days respite the flood came; the years of famine and plenty were in cycles of seven; every seventh year the Sabbath of rest; after every seven times seven years came the jubilee; the feasts of unleavened bread and of tabernacles were observed seven days.

The golden candlesticks had seven branches; seven priests with seven trumpets surrounded Jericho seven times and seven times on the seventh day; Jacob obtained his wives by servitudes of seven years; Samson kept his nuptials seven days, and on the seventh day he put a riddle to his wife, and he was bound with seven green withes and seven locks of his hair were shaved off; Nebuchadnezzar was seven years a beast; Shadrach and his two companions in misfortune were cast into a furnace heated seven times more than it was wont.

In the New Testament nearly everything occurs by seven, and at the end of the sacred volume we read of seven candlesticks, seven spirits, seven scales, seven stars, seven thunders, seven vials, seven plagues, seven angels, and a seven-headed monster. Such are merely a few instances of the sacred use of the number common to all nations and all religions.—*Christian Observer.*

MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequaled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with best makers, they have won the highest honors. Illustrated catalogues **$22 TO $1000.** free.

ORGANS

Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "MASON & HAMLIN PIANO STRINGER," by which is secured greater durability and purity and evenness of tone, together with greatly increased capacity. Seeing is Believing

A "wonderful lamp" is in all respects. It never needs trimming, never smokes nor breaks chimneys, never "smells of the oil;" no gumming up, no leak, no spattering, no climbing of the flame, no annoyance of any kind, and cannot explode. And then, beside all these advantages, think of a lamp giving a clear, white light, 10 to 20 times the size and brilliancy of any ordinary house lamp!

"The Gladstone" is made of high-grade, hard rolled metal, all parts interchangeable, and in elegant designs for Dining or Parlor Table, the Study, Drawing-room, Hall or Chamber. Finished in either Gold bronze, Nickel or Antique bronze. Every lamp should have it.

Illustrated price list will be sent you on receipt of a postal card. Single lamps at wholesale price, with or without porcelain shade, carefully boxed and sent by express to any part of the country.

We were closed on Thanksgiving Day. Did you know it?

We are open now until Chrstmas, Sundays excepted.

Our Mr. L. B. Root, in New York, writes: "The market is slow, dull." That means forced sales on the part of importers and jobbers, which means lower prices for us, big bargains for you.

On Tuesday last we had a special sale of plain China silks. The price for that day was also special. It was amusing and gratifying, too, to see the way in which they were "snapped up," and the appreciation of our friends by carrying them off. Now we have another special bargain for you, this sale to continue while this lot lasts.

THE RAILROAD BUDGET.

The Busy's Mirror of Events as They Happen Around the Railroads and Manufactories.

Many of the employes of the Bass works own their own homes.

The Pittsburg shops are now getting a large amount of castings from the Bass works.

The Bass works are still engaged on the new engine for the electric light works.

Gus. Prill, of the Bass works, has moved into his new residence on Hayden street.

Henry Lohmeyer, of the Bass moulding rooms, is off duty to-day on account of sickness.

Thomas Underwood, foreman of the polishing room of N. G. Olds & Son's has resigned.

Harry L. Worden, has been appointed city freight collector by Agent Moderwell of the Nickel Plate.

The railroad Y. M. C. A. building is being rapidly repaired. When finished the association will have magnificent rooms.

The Fort Wayne Furniture company will shortly build a new story frame building near their factory. It will be used as a store room.

The planing and iron machine department of the Pittsburg car shops are now working at night. The employes get in thirteen hours a day.

Supt. C. D. Gorham, of the Nickel Plate, has opened temporary headquarters in Chicago, until Mrs. Gorham's condition is improved.

The Wabash is asking for bids on 1,000 box cars. Within the last week five Indiana roads have also asked for bids on large numbers of cars.

The wheel rooms at the Bass works commenced working a full force in that department this morning and is now turning out 380 car wheels a day.

On Thanksgiving day the track of the Dayton & Toledo road between Dayton and Delphos was widened to standard gauge, and now the company proposes to extend the road to this city.

All the lines of the Pennsylvania company west of Pittsburg, for the ten months of 1888, show a surplus over all liabilities of $27,507, being a loss, as compared with the corresponding period of 1887, of $1,000,754.

F. D. Casseanave, superintendent of motive power and machinery of the northern division of the Pennsylvania company is off on a tour of inspection to the company's shops at Allegheny, Altoona and other places.

Chas. E. Taylor, machinist at the Bass works, was compelled to leave the shops yesterday, on account of sickness and is now confined to his home with an attack of fever and ague. Charley is a great favorite at the shops and his friends miss him.

Alfred Morrison, who for some years has been general roadmaster of the western division of the Pittsburg, Fort Wayne & Chicago road, has retired from that position to engage in business in Chicago, and the employes on the line last week presented him with an elegant gold watch and chain.

While the gains of the Pennsylvania road proper and its western lines, in the first ten months of this year fell $680,-000 below those of the corresponding period in 1887 they are still $1,190,000 greater than were the profits above operating expense and fixed charges in the corresponding ten months of 1886.

When the Chicago, Burlington & Quincy strike was commenced, the treasury of the Brotherhood of Locomotive firemen was rather low, and the Brotherhood of Locomotive engineers voted to donate $75,000 to the former, paying it in installments. On the first of this month the last installment was paid.

The Southwest dispatch, a new fast-freight line just organized, will operate over the Toledo, St. Louis and Kansas City, the Nickel Plate, the West Shore, and the Fitchburg railroads, and will probably be extended to include other roads in the west and southwest. The headquarters of the road will be in Toledo.

John Fogle, of the Wabash railway, died Sunday, at his home, in Toledo. He was the oldest employe of the Wabash railway in point of service, having worked continually as a bolt cutter for that company since he was thirteen years old, being forty-eight years old at the time of his death, Although he has been sick for twenty-seven years, he was constantly at work up to Wednesday last, when he was forced to lay off.

One of our exchanges has this to say: "The Wabash shop employes of Fort Wayne fear that the projected discharge of Receiver McNulta may result in the purchase of the main line of the Wabash Western, and in that case the repair shops in that city may suffer in the volume of their work. Just now there is increased activity in the Fort Wayne shops of the Wabash, and engines of the Butler branch, which have hitherto been repaired at the shops at Delray, a short distance out of Detroit, are being taken to Fort Wayne for repairs."

Fred Bauermaster, of the Bass works, is doing honors over the arrival of a bran new daughter at his home, on John street.

G. W. Stevens, assistant general superintendent of the Wabash, passed through the city yesterday, with other officials, on a special car.

J. T. Leach and Will Cherry, of the boiler department, and Wm. Rhodes, of machine department of the Pittsburg shops, left this morning to inspect the boilers along the line of the Pennsylvania road, from Bucyrus, Ohio, to Chicago. It generally requires about two weeks to complete the inspection and at this season of the year the task is an unpleasant one.
